

ASO-250 - Water Unit

dedicated to ozone performance

PRODUCT OVERVIEW

The ASO-250 Water Unit is a perfect product of versatility and reliability. The applications for this unit will help reduce bacterial growth, and help keep your water clean and pure. It is built in a stainless steel enclosure, which will hold up in many climate conditions.

This Corona Discharge cell operates on ambient air and will work with pressure or vacuum applications. The ASO-250 Water Unit is perfect for water features, fountains, large aquariums and fish ponds. It's nature's way of purifying water.

Flexible ozone solutions for your water purification needs
