

EZ-500T - Water Cooler Sanitizer

dedicated to ozone performance

PRODUCT OVERVIEW

This compact unit fits easily behind your current water cooler. You can enjoy fresh, clean water in a matter of minutes with only minor modifications. The unique built in timer will turn on/off without programming. Ozone eliminates bacteria, viruses and parasites that linger inside all water coolers which is called Bio-Film. Our ozone technology featuring one compact unit will sanitize in place (SIP), and deliver freshness that you can taste.

Flexible ozone solutions for your water purification needs
