WARRANTY

- One Year Warranty

OZONE TECHNOLOGY IS NATURE'S WAY FOR FOOD SAFETY

Vege-Kleen™ is your guarantee to food safety in your kitchen. It is compact, powerful and designed for easy installation and use. Vege-Kleen™ not only successfully sanitizes your fruits, vegetables, poultry and fish...it doubles the shelf life. It is a proven fact that during the transportation of food most companies do not take responsibility for the sanitization process.

Vege-Kleen™ is designed to fit under-the-counter, attaching to a designated faucet at your sink (faucet included) so it does not take up valuable counter space. This is absolutely the best way to guarantee the purity of your food. You can purify your food at the time of use. Don't settle for anything but the purest and cleanest food possible.
