

UTC- 6000 INDUSTRIAL WATER SANITIZING SYSTEM

dedicated to ozone performance

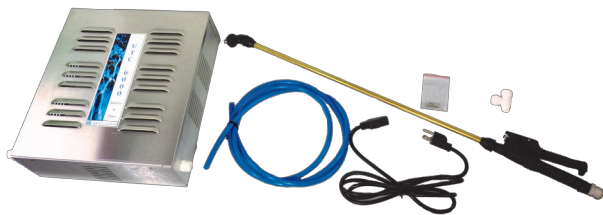

PRODUCT OVERVIEW

The UTC-6000 Industrial Water Sanitizing System will deliver sanitized water that will kill 99.99% of bacteria and viruses instead of using harsh chemicals. This powerful product delivers 1.5 parts per million (ppm) of dissolved ozone. This unit utilizes six individual ozone generator cells that are easily maintained or replaceable.

The UTC-6000 Industrial Water Sanitizing System can be used in restaurants, grocery stores and large food chains. The sanitized water will sanitize food processing areas, food utensils, food equipment and prep work stations. The uses for this product are as endless as your to-do list which include packaging areas, floors, walls, bottling rooms and can even kill bacteria inside floor drains.

The UTC-6000 Industrial Water Sanitizing System has unlimited uses for sanitizing all farming applications. Any farming equipment used to pick crops, processing tools, packing sheds and food storage areas.

Flexible ozone solutions for your water sanitation needs

SPECIFICATIONS

- Power: 120V AC 60 Hz
- Flow rate with wand: 1.5 gpm @ 80psi
- Flow rate with faucet: 2.5 gpm @ 80psi
- Min. & Max. Water Pressure: 15psi & 80psi
- Ozone Output: 1000 mg/hr
- Ozone Residual: 1.5ppm
- Dimensions of UTC Box: (L)13" (W)11.75" (H)4"
- Weight: 9 lbs.

FEATURES

- All Internal Components are UL Listed
- Solid-state Electronics Encased in Epoxy
- Includes Sanitizing Sprayer Wand
- Unit Activation as Wand is Opened and Closed
- State-of-the-art Ozone Generator
- State-of-the-art Venturi Injector

WARRANTY

- One Year
- Excellent Customer Support Team
