

MODEL 206A – AIR PURIFIER OPERATING INSTRUCTIONS

PRODUCT OVERVIEW

The Model 206A Air Purifier offers you the perfect solution to odors that occur every day in your home, car and bathroom. This discrete unit delivers mountain clean, fresh air simply by turning it on. It really is that simple. Connect to power, turn it on and odors will start to dissipate. The Model 206A Air Purifier can be mounted into a wall, set on a counter top horizontally or vertically for smaller spaces, and right on the dash board of your car. This energy efficient ozone air purifier operates quietly and maintenance is a breeze because the unit has been built with top quality components so there are no filters that would require changing. Plug it in, turn it on and enjoy the fresh scent.

IMPORTANT SAFETY INSTRUCTIONS

- To protect against risk of electric shock and personal injury, do not place cord, plugs or the unit near water or any other liquid.
- Do not operate this unit if it has a damaged cord or plug, or after a malfunction.
- This unit is not intended for outdoor use.
